JUNE
2020

'The power to change your life lies in the simplest of the steps'

Every single thing you go through, is designed to grow you. Every experience that we undertake is a step ahead in the process of growth.' In the spirit of moving forth, the country has entered the Unlock 2.0 period where it is slowly and gradually becoming habitual of the life with COVID 19. We no longer crib about being stuck under lockdown; no longer do we feel barricaded by the paws of the pandemic. The world has understood that the life is just going to be segregated in terms of pre and post corona times. The people have clearly grasped the concept of dynamism, where nothing is consistent and everything changes in a blink of an eye.

Talking about the educators of the modern world, there isn't a stone left unturned with their hard work and worthy efforts. The students, who were earlier thinking of the virtual classes as a phase, have now realized it to be more intense and have started being less casual and ignorant towards them. The students who thought of taking these classes as a source of being connected to the school are now considering them to be a bridge towards gaining knowledge. The educators who were not carrying the technology up their sleeves in the past times are now in full swing to grasp the methods and ways to become a professional. Imparting education is not a 08 am to 02 pm task now; rather it is now a 24X7 activity which is immersed in our daily routine.

The school has stepped itself to various ladders in terms of providing quality education. No more rote learning and lecture method take up the class duration; in fact, the students and teachers have transformed the system to be more competency based than content based. The learning is entirely student centric now where the students grasp concepts using skills. The introduction and accommodation of Art Integrated Learning in the curriculum transaction is one aspect bringing us closer to spread of holistic education. The incorporation of Project Based Learning, Experiential Learning and Activity Based Learning have helped the students in getting equipped with the new age learning. The students are now aware of platforms to connect to the people, teachers and peers. Multi modal assessment has been incorporated to ensure evaluation of students' progress.

The aim of the educators is to develop various skills so that the students are able to adapt to the ongoing metamorphosis and to lay a solid foundation for an accomplished and self sustained future.

**So, to sum up,
it is believed
that Growth is
painful,
Change is
definitely
painful; but
nothing is as
painful as
staying stuck at
a place you do
not want to
move from.**

**1st
JUNE**

Global Celebration of World Parents Day

As quoted by Jane D. Hull, "At the end of the day, the most overwhelming key to a child's success is the positive involvement of parents." The parents are those precious gifts that god had given us to empower our lives with happiness and comfort. There is no need to have a special day to wish these pure souls as we believe that no day could compensate the love and comfort that they provide. Still if given a chance, the students did not leave an opportunity to show their gratitude towards their parents by celebrating World Parents Day.

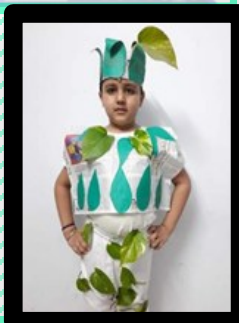

**5th
JUNE**

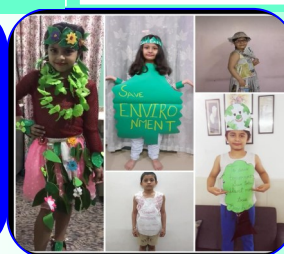

World Environment Day Celebration

**For
this
Earth
we
adore,
Let's do
a little
more**

It is sometimes hard to visualize that whether our present generation is ignorant, or our previous generation was too lenient in taking care of this precious gift from god. With all these thoughts in mind, the students memorialized the World Environment Day. A self-composed song by the senior students along with visual presentation, followed by the gratitude shown by the students at each level.

**Plant a tree,
plant a hope**

As it is believed by most of the people that the one who believes in tomorrow, embraces the greenery around. Putting such inspirational words into motion, Anshika Bisht, middle wing student of our school took tree plantation drive as a means to make the world green and clean again. It is in such times that the students learn the act of sustainability and reliability towards the mother nature.

Pocket-Paws at work

Hand print Art Activity

The desire to create is one of the deepest yearnings of the human soul'- such beautiful words commemorate the celebrations that the toddlers of our institution undertake every day. Such was the Hand print activity where the students of pre-primary wing exhibited their creativity on a piece of paper by creating innovative designs.

**12th
JUNE**

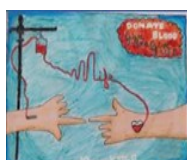

World Day Against Child Labour

The life of children is destroyed once the labour is employed. Why do people still not understand the fact that children are those innocent pearls who are to be caressed with love and affection and not to be chained into bonds of labour. They are to be set free for the future to be made and for the world to be created. Keeping this thought in mind, the students undertook a task to educate the people against the mental hazards of engaging little children into laborious tasks. These initiatives certainly help in bringing transformations.

**14th
JUNE**

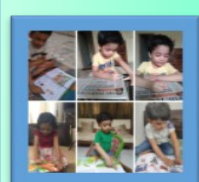

World Blood Donor Day

Like said, "The blood we donate, gives someone another chance at life." And thus, every drop of blood adds to the hope and laughter in the lives of the people. In such hard times when people are struggling to keep themselves and their family members safe from the pandemic spread, a single help through plasma can provide someone a chance at life. Our students tried to reach out to maximum people through their activities to honor the blood donors for their good deed.

**19th
JUNE**

National Reading Day

Springing into Reading

“The point of reading is to educate oneself and the reasons to do that are not only to learn across time and disciplines, broadening ones horizons, but also to live a better life.” Our young ones enjoying the sessions of reading on National Reading Day, honouring the day with its true worth.

**21st
JUNE**

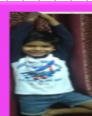

International Yoga Day

Inspiring the inner light

‘Y

oga is a light once lit will never dim, the better you practise, the brighter is your flame.’ Such inspiring words to acknowledge the day of ‘Yoga’- day to celebrate the invaluable gift given to us by our ancient heritage. It is not about exercise, but to discover the sense of oneness with nature and with the world. Keeping this thought moving, the students celebrated the grand day with some poses and asanas. The students of secondary and senior secondary wing took sessions for the junior students to acquaint them with the idea of yoga and its importance.

**21st
JUNE**

Father's Day

My first friend..My father

'A good father is one of the most unsung, unpraised, unnoticed and yet one of the most valuable assets of our lives.' It is through our fathers that the world seems easy and comfortable to live in. The students celebrated the Father's Day on 21st June 2020 by preparing cards, baking cakes and by showing their gratitude by honouring them on this special day. The celebration took place at each level.

WEB SERIES OF VIRTUAL TOUR-SUMMER OF 2020

“Where to cherish and witness the VIRTUAL TOUR” -official you tube channel of NKBPS DWARKA

The students of NKBPS Dwarka presented a virtual tour to various geographical, historical and political aspects of our country India by glorifying its varied and minute hidden facts. The tour was conducted under the guidance of the teachers of SST department and technical controller Ms. Shuchita Malhotra. The students were able to showcase their journey and experience through digital aids.

The young brigades of middle wing explored some of their favorite spots during their vacations. They imparted and shared their experiences after exploring their travelling destinations. They jotted down all the scenic and heritage sites under their travelling choices and put them into their travel list. The students excitedly created their bucket list of all the activities that will conduct and become a part of, during their tour. The students prepared their own itinerary and enjoyed their summer break. Thus, this totally proved the fact that one can experience the oceans and seas even with the thoughts.

VIRTUAL TOUR TO GERMANY BY CLASS X STUDENTS

Filming Findings and Testing Technologies' Learning The Art of Growing

Movie Making by Divya Sharma VIII C

"Making a movie is like casting a spell on the viewers." When the students take technology into their hands and try creating innovative means to learn and grasp their old heritage. The students were told to choose a monument from the ancient times and acknowledge all the information associated with it. It was a great experience by the students as they were able to learn the new concept of movie making apart from learning about the forgotten heritage of India. One such experience is shared by the student 'Divya Sharma' - middle wing student.

REPORT
ACTIVITY FOR THE MONTH OF JUNE:

A movie making activity was assigned to me for NKBPS web series by my class teacher Mrs. Tapti Chatterjee. The topic assigned to me was HERITAGE SITES of Moral Value. I choose one National monument (The Gateway of India) and one International monument (The Statue of Liberty) having historic and moral Value. In addition to learning the new technology about movie making I also learnt about the historic and heritage moral value of these monuments -

The gateway of India which was erected to commemorate the landing in December 1911 at Apollo Bunder, Mumbai of King-Emperor George V and Queen-Emress Mary, the first British monarch to visit India. The gateway is also the monument from where the last British troops left India in 1948, following Indian independence.

The Statue of Liberty the copper statue, a gift from the people of France to the people of the United States, was designed by Frenchman got in sculptor. After its dedication, the statue became an icon of freedom and of the United States, seen as a symbol of welcome to immigrants arriving by sea.

Through this web series I gained knowledge and enlightenment about the national and international monuments of historic and moral value.

By-
DIVYA SHARMA, VIII-C

Web
series

As it is said by Anthony J D'Angelo, "Develop a passion for learning. If you do, you will never cease to grow." Such inspiring and motivational words always make us believe that nothing in the world is impossible if the motive behind the same is growth. The same thought is structured in the mind of one brilliant student of NKBPS, Harshita Jain of class X. Harshita, a budding poet, who has been taking active part in the debates, declamations, extempores and other language events, tends to believe that nothing in the world can be described through poetry. This year, she undertook a course on Health Effects of Climate Change from Harvard. She shared her thoughts and ideas in the form of a poetry with the HOD Mr. Vinay Kulkarni who, after listening, invited her to a webinar on Waste Management on 05th June 2020, that is, World Environment Day. She recited two poems which were well received by the presenter Dr Sarita Jindal, Former Advisor and Director, Ministry of Environment, Forest and Climate Change. Her efforts were lauded by everyone. She thanked the school and especially principal madam for providing such platforms to grow and bring finesse to the skills. She was honored to be a part of such a great event where she was constantly showing gratitude towards the institution that she is a part of.

A helping hand towards the society COMMUNITY OUTREACH PROGRAM

As quoted by Nelson Mandela, "No one is born hating another person because of the color of his skin, or his background, or his religion. People must learn to hate, and if they can learn to hate, they can be taught to love, for love comes more naturally to the human heart than its opposite." These beautiful words make us believe that there isn't any force stronger in the world than the force of empathy. If everyone in the world start empathizing with one another, the world will be indeed a better place to live. The students of our school too step forth in helping the community by lending a helping hand in such hard times.
