*Hope is not the conviction that something will turn out well, but the certainty that something makes sense, regardless of how it turns out.*

-Vaclav Havel

**H**ope can be a yearning for something to occur, a wish for things to change for the better, or a particular dream or aspiration. It is important for us to have hope in our lives, important for us to look positively into our future and hope is also a major protective factor in helping us tackle intrusive thoughts. Our life without hope would feel empty and useless. We cannot strive for something if we did not carry hope within us. One should be thankful to God for the gift of hope. It is as big a gift as life itself. Hope is a feeling that life and work have meaning regardless of the state of the world that surrounds us. School is the most important part of a child's life. It gives valuable lessons to the child in terms of knowledge, growth, and development. The school provides knowledge for being social and interactive with different people. It also teaches students how to become responsible as a citizen. When will things go back to normal? Was a predominant thought in every parent and child's mind, which is understandable given the pain and sacrifice many endured over the past year and a half. After remaining shut from March last year, schools for classes 9 to 12 in the national capital were allowed to reopen in a phased manner from September 1. This move brought a ray of hope in the lives of children who were stuck inside their homes due to the ongoing pandemic. Unquestionably, there were fears and apprehension regarding the safety of their children among the parents but the school reassured each parent to consider schools as a safe haven for them. The parents' reluctance was taken into consideration by organising certain orientation programs and taking their queries and concerns into attention.

Thus, we all need to understand that the school is working alongside us to ensure the wellbeing of our young Bagrodians.

*Hence, Let your hopes, not your hurts, shape your future.*

# ATMANIRBHAR BHARAT (SEPTEMBER 1-SEPTEMBER 10)

Atmanirbhar Bharat Abhiyaan or Self-reliant India campaign is the vision of new India envisaged by the Hon'ble Prime Minister Shri Narendra Modi.\* \*On 12 May 2020, our PM raised a clarion call to the nation giving a kick start to the Atmanirbhar Bharat Abhiyaan (Self-reliant India campaign). He introduced the term among Indians during the time of COVID-19 pandemic. Government had taken many initiatives to be safe from the deadly virus in various sectors. They basically focused on economy, infrastructure, system, etc. and also in different phases. To make India a self-reliant nation, the young Bagrodians engaged themselves in various activities for a period of 10 days and came up with something which was praise worthy. Truly representing One Nation - One Voice.

## AATMA-NIRBHAR BHARAT

# INTERNATIONAL LITERACY DAY- SEPTEMBER 8

*International  
Literacy Day*

**S**ince 1967, International Literacy Day (ILD) celebrations have taken place annually around the world on 8th September to remind the public of the importance of literacy as a matter of dignity and human rights, and to advance the literacy agenda towards a more literate and sustainable society. N. K Bagrodia Public School, in its noble path during this exceptional period, has virtually provided the opportunity to all the students to showcase their skills and talent by organising various activities such as poster designing, enactment of their favourite character, poem recitation, etc. The students on this 'International Literacy Day' high-

lighted the importance of literacy for proper social and individual human development. They emphasised how basic literacy skills equip individuals to transform their lives by improving their overall standard of living, and in turn, improve the standard of living for whole communities.

# हिन्दी दिवस - 14 सितम्बर

## हिं

दी दिवस ' सभी हिंदी सेवियों के लिए एक उत्सव का दिन ,जो हम हिंदी भाषियों को एकता और प्रेम के सूत्र में बाँधता है ,साथ ही हिंदुस्तानी होने का गौरव प्रदान करता है ।

\*सम्मान है हिंदी , अभिमान है हिंदी।\*

\*भारतीय होने की पहचान है हिंदी।।\*

14 सितंबर ,सन् 1949 वह पावन तिथि है,जब हिंदी को राजभाषा के रूप में घोषित करके भारत देश ने अपने अचेतन शरीर में एक नई चेतना जाग्रत की थी। वास्तविक रूप में भारत की आत्मा ने उसी दिन पूर्ण स्वतंत्रता प्राप्त की थी,जिसने हमें एक नई पहचान व गति दी ।और तब से हम अपनी मातृभाषा के गौरवमय इतिहास को याद करके उसे पुनः एक उन्नत सोपान की ओर सह सोचकर बढ़ाने का प्रयास करते हैं कि यही अपनी मधुरता व वैज्ञानिकता से स्वयं को परिभाषित करते हुए देश के सम्मान को अक्षुण्ण रखेगी।हिंदी का अभिमान तो हमारी रग-रग में है,परंतु इस विशेष दिवस से अपनी भावी पीढ़ी को परिचित करवाने हेतु हमारे विद्यालय में हिंदी पखवाड़े के अंतर्गत निम्नलिखित गतिविधियों का आयोजन किया गया

# WORLD OZONE DAY- SEPTEMBER 16

Life depletes when Ozone Depletes... So to save life save Ozone.

**T**he United Nations General Assembly on 23rd January, 1995 adopted resolution 49/114, which proclaims 16th September as the World Ozone Day, commemorating the date on which Montreal Protocol on Substances that deplete the Ozone Layer was signed in 1987. The World Ozone Day offered an opportunity to focus global attention and action on this vital environmental issue. The theme for the celebration of this year's (16th September, 2021) World Ozone Day is "Montreal Protocol - Keeping us, our food and vaccines cool". Young Bagrodians understand the seriousness of WORLD OZONE DAY and put up their whole-hearted effort to pass on the message - Ozone Layer : A hole in one can ruin your day.

\*SAVE TREES, SAVE OZONE, SAVE EARTH should be the mantra of our lives.\*

# OZONE

## World Ozone Day

# INTERNATIONAL DAY OF PEACE - SEPTEMBER 21

**I**nternational Day of Peace is celebrated on 21 September every year across the world and is observed as a day of global ceasefire and non-violence, an invitation to all the nations and people to honour a cessation of hostilities for the duration of the day.

The first Peace Day was celebrated in 1982 and was held on the third tuesday of September each year until 2002, when September 21 became the permanent date for the International Day of Peace. The theme of International Day Of Peace 2021 is "The road to a lasting peace: Leveraging the power of youth for peace and security". To support the same, N.K. Bagrodia Public School, Dwarka has taken the initiative to spread the awareness amongst the Bagrodians by conducting various activities.

# WORLD TOURISM DAY-SEPTEMBER 27

Travel can be one of the most rewarding forms of introspection

World Tourism day is observed on 27 September annually to raise awareness about the significance of tourism and how it affects social, cultural and economic values globally. Keeping in mind the importance of the same and to highlight the

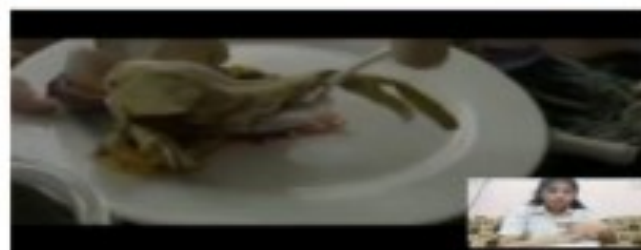

impact of the tourism sector in promoting and preserving culture and heritage around the world, the students of secondary and senior secondary wing of N K Bagrodia Public School took the initiative and enthusiastically participated in the celebration. The students spread awareness regarding the same by creating videos, designing E-posters, organising and participating in virtual tours etc. The event was a success in terms of imparting experiences.

Celebrates

*World Tourism Day 2021*

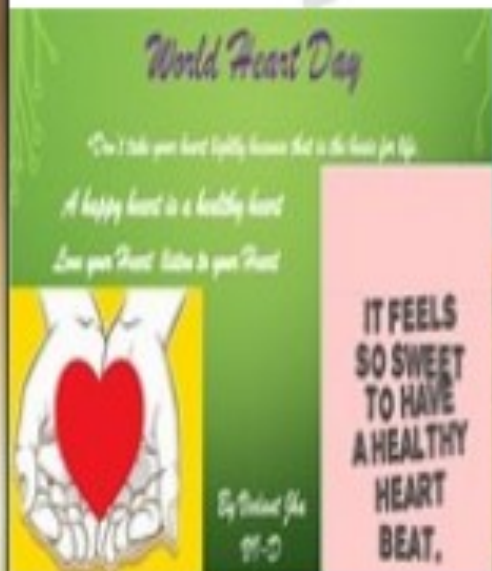

# WORLD HEART DAY-SEPTEMBER 29

The theme for this year's World Heart Day was "Use Heart to beat cardiovascular disease". Various collages and posters were designed according to the theme along with creation of innovative essays and poetry. Certain short movies and presentations were also presented by the students on the theme. Various students showcased their talent of self-creation to acknowledge the importance of the day.

SEPTEMBER 29

## WORLD HEART DAY

### World Heart Day

Let's inform millions of people around the globe about ways to improve their heart health.

- ✓ REDUCE YOUR STRESS
- ✓ ENSURE THE RIGHT INTAKE OF DIET
- ✓ TRY TO EAT GREEN VEGETABLES AND FRUITS.
- ✓ DO EXERCISES
- ✓ TRY TO STAY HAPPY AND POSITIVE

BY  
Ananya Sharma  
CLASS 9B

### WORLD HEART DAY

World heart day organizes on September 29 every year to emphasize on the importance of being active and staying informed about cardiovascular Health and diseases. The day promotes preventative measures and steps that people should inculcate in their lifestyle to keep away heart attacks at bay.

BY SAUMYA CLASS 9B

# NUTRITION MONTH CELEBRATION

## YATHA ANNAM TATHA MANNAM

*"He who has health has hope, and he who has hope has everything."*

**N**utritional information is a vital part of a comprehensive health education program and empowers children with knowledge and skills to make healthy food and beverage choices. Our hon'ble Prime Minister Shri Narendra Modi announced 'September month' as the **"NUTRITION MONTH / POSHAN MAAH"** to raise awareness pertaining to complete nourishment – "Sahi Poshan Desh Roshan". As a part of this awareness program, the students enthusiastically participated in various activities.

# A GLIMPSES 2021

**N** "Each child is the seed of a new life-bearing inside of it, the fruits of life's possibilities"

**I** **N** • K. Bagrodia Public School, Dwarka has always focused on empowering our students and getting them ready to face the challenges of life efficiently. With changing paradigms in teaching-learning brought about by COVID-19 pandemic, NKBPS Dwarka celebrated its annual Inter School Event- GLIMPSES 2021 virtually for classes I to III. It included a plethora of literary and creative events which aspired to mould young impressionable minds into creative individuals by tapping their talent and instilling confidence in them. The opening ceremony was organized on 18<sup>th</sup> September, 2021 on MS Teams and simultaneously telecasted live on YouTube. The occasion was graced by the presence of the members of the management, Principals/heads of various schools, teachers and event judges. An overwhelming number of 200 students from 25 schools from Delhi participated in GLIMPSES 2021. Different set of competitions were arranged for the children for various grades, where they exuded so much of self-confidence, talent, imagination, innovation and grace that left the panel mesmerized with the firm assurance in their minds that these young saplings are a promising and successful future of tomorrow. A talented panel of judges (subject experts) judged the various events and applauded the vision, efforts and the relentless hard work of the students and their mentors. The cooperation extended by the parents and the teachers to make the event a grand success was also appreciated. All the events were impartially evaluated by the judges.

## OPENING CEREMONY GLIMPSES'2021 GAINING SHINING OUTCOMES

# AZADI KA AMRIT MAHOTSAV

**T**o commemorate 75<sup>th</sup> anniversary of India's Independence, a number of activities were conducted in the school under the guidelines of CBSE. For the students of classes I to V, paragraph writing was organised on places associated to our freedom fighters. For the students of middle wing, designing of poster making was done where the children were asked to showcase their understanding of the efforts and sacrifices made by the freedom fighters. The students of senior classes were asked to have a discussion in the classes about how they perceive the contribution of our freedom fighters in freedom struggle. It was wonderful to see that the students participated whole-heartedly in the activities designed for them.

# BAGRODIA TOWNHALL SEASON 2.0

# N

.K. Bagrodia Public School, sector 4, Dwarka organised Townhall Season -2.0. It is with great honour that various informative and innovative treats are offered to the students via great spokespersons. Every week, Monday, the school conducts a townhall session with fresh air of knowledge and information. The students and parents get to learn varied forms of yoga, artistry skills and some brainstorming lectures. Given below is just a nutshell of various sessions conducted throughout the month of September

## September 6<sup>th</sup> 2021

N.K. Bagrodia Public School  
Sector-4, Dwarka  
is organising  
**Bagrodian Town Hall Series**  
Season-2.12  
with  
  
Ms. Sheetal Chaudhary Kapoor  
Senior faculty - Art of Living  
Theme: How to Study When you don't feel like it  
Date: 13<sup>th</sup> September, 2021  
On MS Teams  
Time: 9.00 a.m.

The speaker of the session was BK Uma-the motivational speaker from Brahmakumaris. The session commenced with the digital prayer. The speaker introduced the session with addressing the importance of Mind. The speaker highlighted the law of attraction in the form of three steps of deliberate attraction—Ask, Believe & Receive. She further conducted an activity in which she asked few questions addressing few situations and instructed the students to analyse the first thought flashes in their mind. She showed a motivational video to inculcate the positive thoughts in the minds of young listeners. BK Uma explained the disadvantages of negative thoughts such as fear & anxiety, less energetic, feeling of jealousy & depression etc.

## September 13<sup>th</sup> 2021

N.K. Bagrodia Public School  
Sector-4, Dwarka  
is organising  
**Bagrodian Town Hall Series**  
Season-2.11  
  
BK Uma  
Motivational Speaker,  
Brahmakumaris

The speaker of the session was Ms Sheetal Chaudhary Kapoor—a senior speaker Art of Living. The speaker introduced the session with a story of a woodcutter who believed in sharpening his axe during his free time. The speaker motivated the kids to utilise the breaks during the exam time in a fruitful manner to yield the maximum benefit. The speaker proceeded further explaining the formula to success. She further told the students to how to overcome procrastination. The students were motivated to follow the footsteps of the speaker and promised to utilise the same in their regular habits too.

# VIRTUAL TOUR TO NATIONAL GANDHI SMRITI MUSEUM

**I**n the times of a pandemic, virtual experiences ensure that young minds are not left behind in their learning. In this context, a virtual tour helps students explore places important to their discipline of study and areas of interest. The students of **classes I to V** were taken on a virtual tour to **NATIONAL GANDHI MUSEUM** on **18<sup>th</sup> September, 2021**. Students were briefed about the role of **Father of Our Nation** in the freedom struggle and how his teachings and methodologies motivated other freedom fighters to achieve freedom. The trip began with a lot of enthusiasm and vigor. The National Gallery showcased a large number of paintings and personal belongings of Mahatma Gandhi. The gallery included information on political leaders and the peace movements. Through this virtual experience, the students also got to know about how Gandhiji spent his last days before he was assassinated. They visualized various articles associated with life of Gandhiji. The inquisitive students came up with interesting questions which further enhanced the learning experience of the students. Ma-

hatma Gandhi's lifestyle and his principles not only induced and increased the awareness among the children but also instilled in them a sense of nationalism.

# MULTIMODAL TEACHING LEARNING

**M**ultimodal teaching-learning suggests teaching-learning of concepts using multiple modes and where a number of our senses- visual, auditory, kinesthetic- are being engaged during learning making understanding and remembering concepts better. By combining these modes, learners experience learning in a variety of ways to create a diverse learning style. This method of teaching-learning is adopted in our classes and the advantages gained through these multiple learning strategies help the students to learn more quickly and at a deeper level, also, improving their attention span.

# CLUB ACTIVITIES-PRIMARY WING

A club is an association of people united by a common interest. All the students are obliged to gain practical experience in the course of their academic education. The concept of club is seen as an opportunity for adaptation to life in the group, forming lifelong habits and cultivating a voluntaristic spirit. Club activities supplement academics and give the students' practical training which they require in day-to-day life. In our school, various club activities are organized giving an opportunity to the students to develop their talent and hone their skills.

## ARTVAGANZA CLUB

- I ORIGAMI WALLET
- II BEAUTIFUL MAIDEN (PAPER FOLDING)
- III ADJECTIVE CATERPILLAR
- IV & V ORIGAMI SNOWFLAKES

## ECOPEDIA CLUB

- I GERMINATION OF SEEDS
- II EXPERIMENT MISCIBLE & IMMISCIBLE LIQUID
- III THE IMPORTANCE OF TREES
- IV & V MAKING COMPOST USING KITCHEN WASTE

## ENGLISH LITERARY CLUB

- I RHYMING ROCKET
- II GOOD MANNERS
- III MY TARGETS - BOOKMARK MAKING
- IV & V MY ADJECTIVE FLOWER

## MATHS-O-MANIA CLUB

- I NUMBER RUMBLE
- II ADDITION AND SUBTRACTION FACT FAMILY
- III DIVISION FACT FLOWERS
- IV & V CRAFT WITH NUMBERS (FRACTIONS)

## PHOTOGRAPHY CLUB

- IV & V FAMILY PORTRAIT PHOTOGRAPHY

## HINDI LITERARY CLUB

- IV & V तुकबंदी शब्दों का प्रयोग करते हुए कविता लेखन

# CLUB ACTIVITIES MIDDLE WING

"Put music to your troubles and let's dance them away". The teacher in charges were Ms. Sumana Mukhopadhyay and Ms. Ayushi. The club activity started with warm up dance. Both the teachers also danced with the students in order to motivate them. The students were asked to perform any Indian folk dance. The dance performance by the students was very enticing. Students enjoyed the club activity.

The English Club organised two activities to enhance the vocabulary and to inculcate confidence in speaking. The club activity is said to be incomplete without a challenge and brain teaser to frame sentence and find the verb, which helps to think beyond the subject.

छात्रों की उपस्थिति लेकर तीन भिन्न चित्र दिखाए और फिर चित्र सम्बन्धी वर्णन, कविता अधूरा कहानी लेखन के लिए प्रेरित किया गया। अपने विचार लिखने के लिए उन्हें १५-२० मिनट का समय दिया गया। लेखन समय समाप्ति के पश्चात बच्चों ने बड़ी ही सुदृढ़ता के साथ अपने मनोभावों को अभिव्यक्त किया। सभी के विचारों को सुनकर आवश्यकतानुसार संशोधन भी किया गया।

Absolute club started with decoding a secret message "I am brilliant at Maths". It was really a confidence builder for kids. Various mathematics puzzles were played in Absolute club VI to VIII. The children enthusiastically participated and enjoyed solving these puzzles.

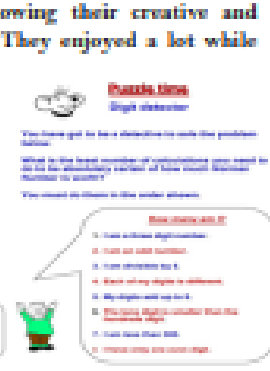

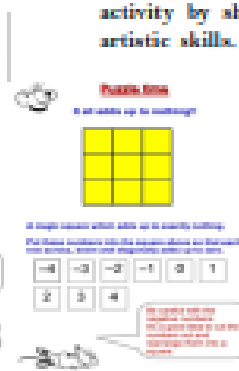

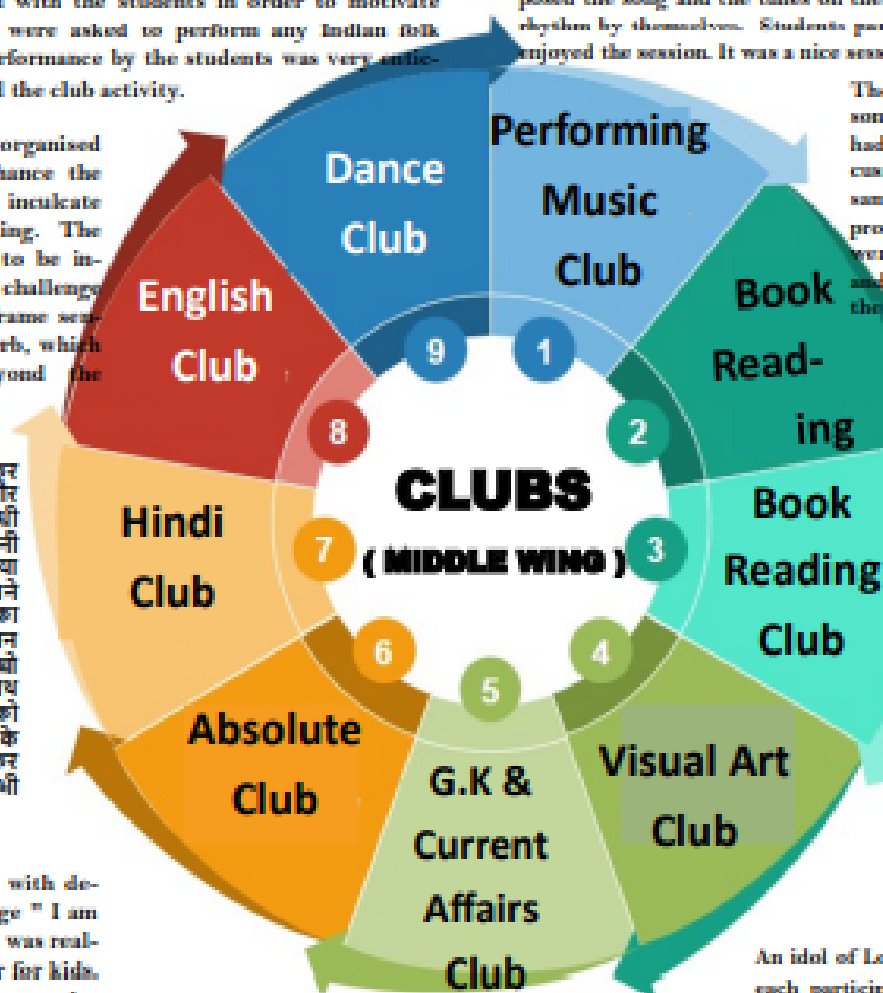

To enhance the knowledge and update the students about the current events, videos on Launch of Sansad TV and Tokyo Paralympics were shown in GK Club. The students presented GK and Current Affairs live quiz on virtual platforms like Kahoot and Quizzes. The students participated in the quiz enthusiastically and responded quite well. Virtual activities were enjoyed by children thoroughly as they learned many new things.

The students were asked to sing a song as Gandhi Jayanti was near so they were asked to prepare and present a song based on the father of the nation, that is, Mahatma Gandhi. The students composed the song and the tunes on their own, putting a nice suitable rhythm by themselves. Students participated whole heartedly and enjoyed the session. It was a nice session with the students.

The students were provided with some short stories to read which had a moral. The same was discussed later on and after the same, the students were also provided a link of ten books and were asked to read at least one and to write a book review on the same.

Students demonstrated experiments related to topic based on Light, Shadow, and Reflection or Motion and Measurement. The students prepared demonstrations and experiments using materials available in the household on the chapter Heat or Water. CLASS VIII students prepared demonstrations and experiments on the topic based on Metals and NON-METALS. Overall the students were curious in demonstrating the work and it was a very interactive session.

An idol of Lord Ganesha was created by each participant of the visual art club. The material required to create the same were- Fevicol, scissors, stones, old CD, old rakhi, beads, sutli, pista shells, paper quilling strips, dori/ribbon/string, broken bangles, newspaper rolls, paint, brushes etc. Students created very innovative and attractive lord Ganesha wall hangings on the occasion of Ganesh chaturthi using all types of waste material available at home. The students showed a lot of interest in doing this activity by showing their creative and artistic skills. They enjoyed a lot while

# SUBJECT ENRICHMENT ACTIVITIES

## Science

Learning by doing is more fun and long lasting. Keeping in line with it, the students of class VII performed experiments with materials available at home to study about layers of soil, rock particles of different sizes, humus and importance of each component of soil.

## Social Studies

Various activities such as role play for revision of the chapter was done in the class. Students performed such activities wearing the beautiful garbs for it. A highlight of the activity is presented in the list below:

Two truths and a lie

- Students were tested onto the fact whether they have learnt the concept or not by checking the validity of the facts by this game.
- Online games on platforms like quizzes

Students' interests are always maintained if they are nurtured by learning in a playful method. So, the students were taught certain aspects of the social studies topics by using certain applications in which they enjoyed answering using Pictionary and other forms.

## Maths

Various cutting and pasting activities were conducted in classes so that students can grasp the concept by the method of experiential learning. The students presented their ideas about various topics using the presentations for the deeper knowledge of the concept. An activity named 'Fun With Mathematics' was conducted to stimulate students' interest in maths and help them with the application skills in maths as many mental maths related activities were conducted.

# ASTRONOMY ACTIVITIES

## 1) Webinar on- 'Fantastic Bursts and How to Find Them'

**Date & Time-** September 6, 2021

**Organised by-** Nehru Planetarium

**Resource Person-** Dr Devansh Agarwal, currently working as a Data Scientist at Bristol Myers Squibb, the USA, Ms. Prerna Chandra.

An online learning opportunity for astronomy enthusiasts was organised by Nehru Planetarium for the topic "Fantastic Bursts and How to Find Them". The resource person Dr. Devansh Agarwal explained about Fast Radio Bursts (FRBs) which are quick and unpredictable flashes in the sky, coming from incredibly far away, outside our galaxy objects. It was also told that to detect FRBs, astronomers survey broad swaths of sky and have to manually search for a few real signals among thousands of false signals detected every day. Artificial Intelligence is being used to automatically detect the FRBs among this haystack of false signals. The session discussed all the latest ingestions in the field of artificial intelligence peeping into the cosmos.

Radio skies at night look different. GBT (green bank telescope) is used for 6500 hrs on a yearly on 1 GHz to 100GHz. Lighting can be seen from other side of earth as magnetic field lines carry electrons. And it also causes dispersion as higher frequency waves travel faster. FRB (fast radio bursts) are received by telescopes and the FRB occurs outside the milky way and the path between the host and the earth is also ionised. Using the number of electrons between the host and the earth, we can estimate the distance between the earth and the host. FRB is also known as Lorimer Burst. This is what the signal looks like after the dispersion.

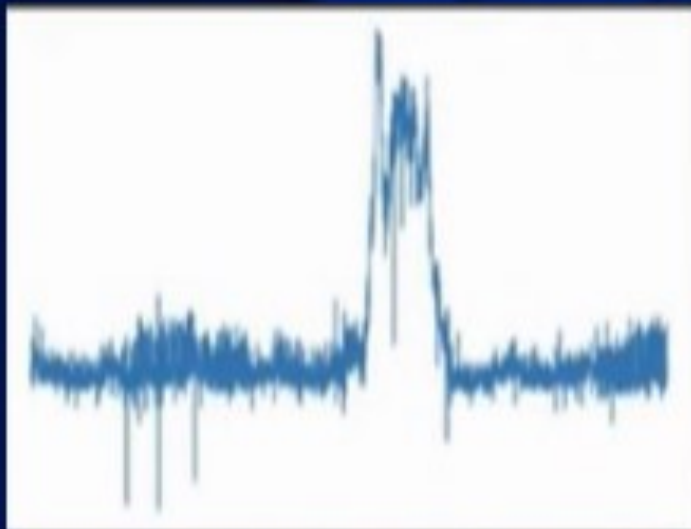

Theories suggest that they might come from black holes.

**Flow chart for search for FRBs:**

There are either non-repeater and repeater FRBs. and some repeater FRBs occur in set periods of time.

NN (neural networks) are algorithms used for detecting FRBs, reducing human effort. NNs are inspired by human nervous cells. Filters are used on convoked images in order to extract information. This is what a convolution neural network looks like: Trained CNNs are called FETCH. FETCH has a 99.5% accuracy rate and can classify 50000 FRBs per hour.

**Learning Outcome:** This session was an interesting and captivating which left students with a lot of information, knowledge about FRBs

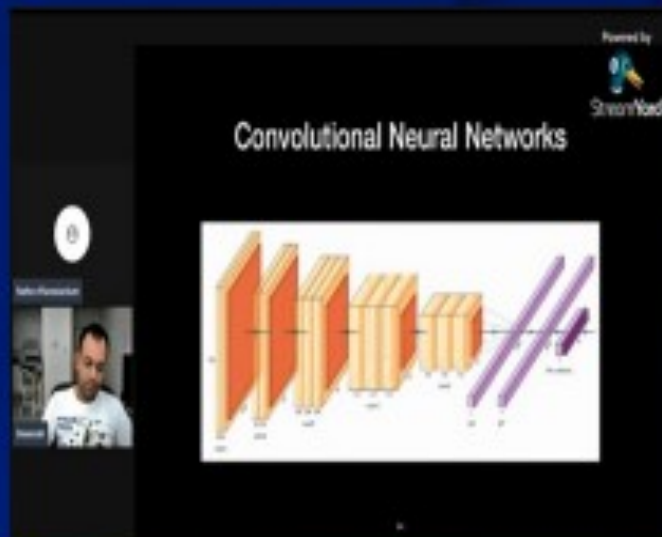

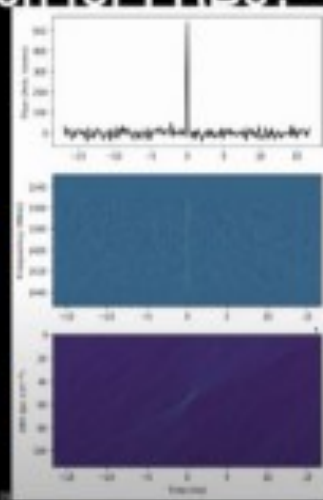

## How to search for FRBs?

Get Radio Data

Dedisperse a lot

Look at Candidates

# ASTRONOMY ACTIVITIES

## 2) You tube Webinar on- 'The sunspot AR-2770 Myths and Reality of solar activity'

**Resource person:** Mr. Siddharth, M.Sc. (Astrophysics & cosmology)

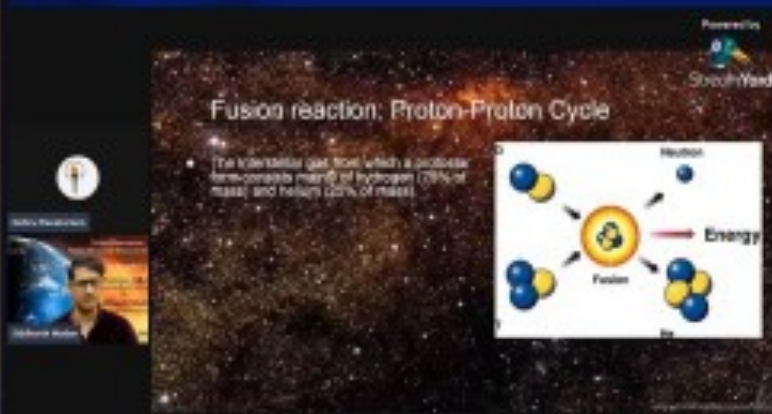

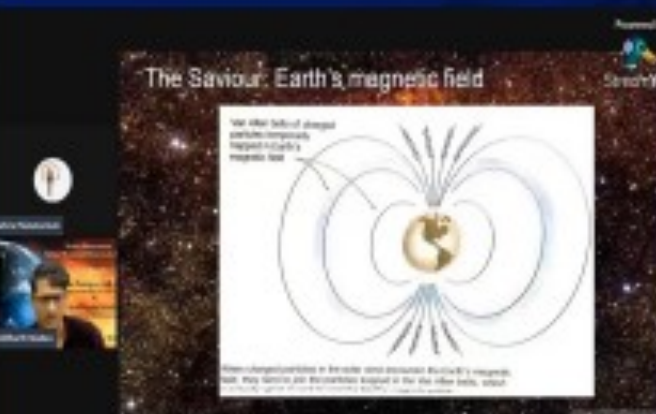

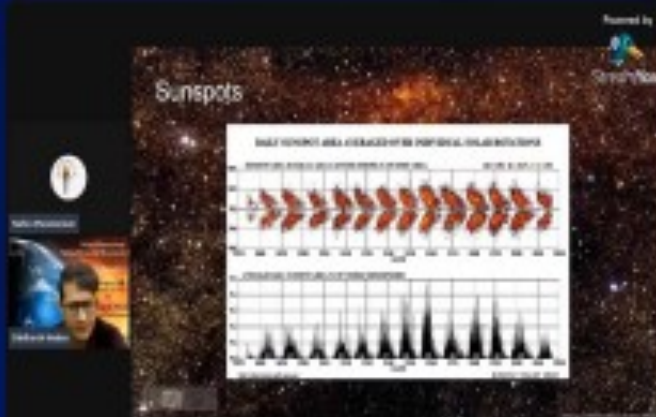

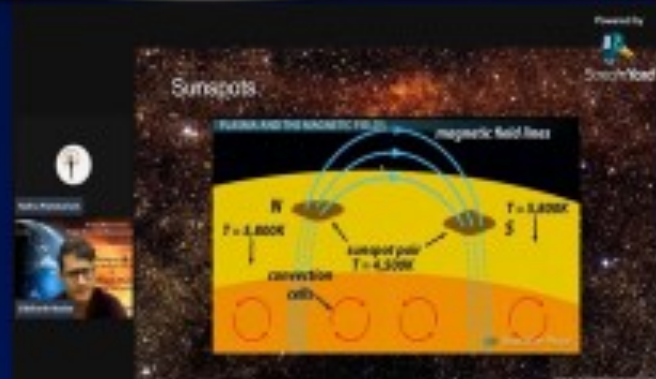

**Platform:** Planetarium YouTube channel.

**Date & Time:** September 18, 2021 at 11:30 am

**Participants:** Students of Class IX

The online session focussed on massive sunspot on the Sun which is turning towards our planet Earth and this could result in strong solar flares. The sunspot AR2770 was detected earlier and is expected to grow in size in the upcoming days. It also discussed the details on this solar activity of Coronal Mass ejection and the progress cycle of the Sun.

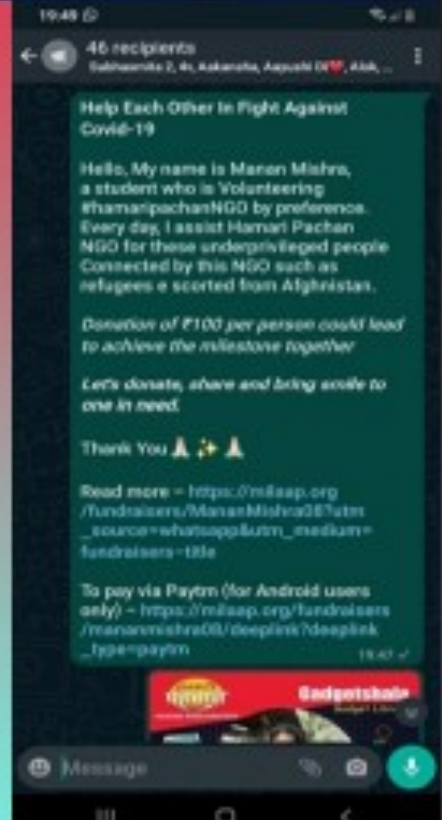

It was very informative for all the children as they got to know about many informative things. Mr. Siddhart Madan told about a lot of things like what are sunspots and how these spots have much higher magnetic fields within them as compared to the outside and allow us to calculate the rotational gradient of the sun

# COMMUNITY OUTREACH PROGRAM

**C**ommunity service involves giving assistance to underprivileged and vulnerable sections of the society in various forms. **N K Bagrodia School, Dwarka** in collaboration with an NGO - Hamari Pahchan provided students an insight into the world of **NGOs** and gave them an opportunity to gain international exposure. Through such programs, the students enhanced their skills through various social networking platforms and thus, shared their experiences. The students learnt how to hold the society together by removing the barricades breeding inequality and thus, moving towards a better and educated community-a community without barriers and a community with immunity.

## Community service

## SHARING Nidhi Rajput VII-A

## CARING

Sharing is caring is a common phrase but a life meaning that when we share something with someone else it is equal to caring for them. Sharing is not only limited to things, we can share our feelings, thoughts, and experiences. It is a great satisfaction comes from sharing.

**POEM**

If you really want to help someone, just be much you care. The best thing to do is to learn how to share. Sharing is a big word, on your favorite thing to do. It really makes just as long as you play.

# EXPERIENCES EXCHANGED BY BAGRODIANS

**C**hange is inevitable, but then change leads to breaking a stagnant approach in life. Change helps in outgrowing oneself and helps in turning oneself into a dynamic personality.' With the re-opening of the schools in proper pattern, the students have come across various emotions altogether, be it anxiety about safety or be it excitement of meeting their peers. Let us hear some heartfelt experiences of our Bagrodians.

- 1) We all were confined to our abode amidst the breakout of Covid -19 pandemic. In the past one year almost, the whole world was static, businesses stopped and education disrupted but a way out to continue with life was found and that was online platforms. But now, with the opening of schools, we are getting back to our normal lives. My first day back to school was filled with joy and enthusiasm. I went to school and met my teachers and friends after a long time. It was fun to sit again in the class and study offline and interacting with the teachers face to face. The last one year made me realize that I was happier going to the school and studying rather than sitting at home. ....Muskan Anand - XII
- 2) Really, there is a vast difference as well as good experience in studying in school than studying online. My overall experience after reopening school says that I got a lot improved in all my subjects, as asking doubts in online classes was a bit difficult as so many students were there and at times, I felt shy in asking questions in an online mode, thinking that many parents might find my questions silly. But then in offline, I got impressed with school's rules and regulations like SMS rule - Sanitation, Mask and Social Distancing.... and many more. It was a wonderful experience that I am experiencing now. ....Akshay Gaur - X
- 3) Looking at our friend's dazzling smiles on seeing one another, is a total breathtaking pleasure, besides the flawless sanitization, superb social distancing norms and unblemished arriving and dispersing arrangements. Everyone is delighted to come to school and study with our adept teachers and study with their proficient ways of teaching which somehow faded in the online classes. It has been a remarkable effort by the school and we, young bagrodians should promise and assure to not let these efforts go in vain. We must attend schools physically in order to get back on educational track. ....Parinika Sharma- X
- 4) Studying in school is far better than studying online. We get to understand the topics more clearly and effectively as in comparison to online classes when internet connectivity sometimes used to act as a barrier, now there are no worries. We get to connect and bond more with our teachers. Face to face interactions with them proves to be a boon. Reopening of schools helps us concentrate better on studies without any disturbances along with a proper environment. Personal connection with everyone at school was always missing in online classes but now spending our time with our friends and teachers in school is really fun which wasn't possible online. Just the thought of coming to school and connecting with our groups again made us nostalgic about the past. Reopening of school feels really great. ....Siddharth- XI
- 5) I am so glad that schools have reopened and after so many months of just seeing our friends and teachers virtually, we could finally meet them. As informed in the orientations, our safety was given the top priority. Before entering the school premises, we were thermally scanned and were asked to sanitize our hands with the contactless sanitizing machines. Within the classrooms, we were made to sit on alternate benches to ensure social distancing and the classrooms were also thoroughly sanitised. The experience of coming back to school was extremely revitalizing as we got the opportunity to interact with our friends and teachers. I was able to understand and imbibe the concepts taught in offline class in a much better manner. We concur with the fact that technology can't replace the personal touch provided by the teachers to us. As a student of Class 12th offline classes will prove much more beneficial in preparing us for board examinations and will definitely reduce our stress which we were feeling during the virtual classes due to lack of much-needed personal touch and a conducive environment which would expedite the teaching-learning process. ....Manya Goel- XII
- 6) After many weeks and months of distance learning, my experience of coming back to school was amazing. As I got the notification of the re-opening of the schools, I was overwhelmed with joy and excitement. I was eager to meet my friends and especially my teachers whom I had just met virtually and was finally happy to start a normal regular life. The rays of sun and chirping of the birds in the morning when I come to school were also missing from my routine, which I was finally able to experience again. I suppose these things too add to the joys which we never knew existed. Thanks to the government to bring back our normal selves. ....Tanisha Aggarwal- XII
